The scheme of foreign schps. was sanctioned in Oct. 1914. Under this scheme 4 State, 2 Damodaradas and 5 Loan schps. can be awarded each year for different subjects of study.

2 The file containing the G.O. sanctioning the foreign schps. of 1914 is put up with the case of Mr. K. Subba Rao who was awarded a loan schp. to study dyeing & weaving but whose schp. is now to be cancelled as he cannot furnish satisfactory security for the loan to be advanced.

3 The file contg. the G.O. about the foreign schps. of 1915-16 has been submd. in another connection.

4 While sanctioning schps. for 1914 & for 1915, the needs of all the departments were first ascertained from the heads of the different departments. Afterwards a notification was published in the Gazette inviting applications.

5 A draft circular letter is now put up to find out the needs of the various departments in

75 The foreign scholarships that can be awarded during 1916-17 are:-

4 State,

3 Damodar Das, and

5 loan.

Out of the 4 State scholarships, 2 will have to be reserved for paying the premia, etc. for the training of Mr. Garalapuri Sastri in soap-making as already ordered by Government.

When applications were invited for the scholarships of 1915-16 it was found that the standard of the candidates that applied was not sufficiently high and most of the scholarships could not be awarded in consequence. As owing to the Civil Service and a large number of appointments to be filled in connection with the University the majority of the most eligible graduates have already accepted other appointments, it is probable that the candidates who will apply this year will be of even lower standard than those who applied last year. Of the 3 State and 2 Damodar Das Scholarships, only 2 may be awarded and the other 2 reserved for providing higher training locally. It is proposed to sanction the training of half a dozen chemistry graduates in connection with sandalwood oil factory, etc., and similiar facilities may be provided for other special industrial training locally.

It is always desirable to select men with preliminary local training, and if necessary, the best of the locally trained candidates may be selected

next year for foreign scholarships.

36 Of the subjects recommended by the Heads of Departments the following is the order of importance, so far as the needs of the next year are concerned:

(i) Forestry,
(ii) Electrical Engineering or Mechanical or Sanitary Engineering.
(iii) Pattern-making and moulding.
(iv) Agriculture, Entomology or Mycology.
(v) Biology.
(vi) Metallurgical and mineral processes.
(vii) Tanning.
(viii) Industrial Education.
(ix) Physical Education.
(x) Sericulture.
(xi) Banking.
(xii) Medical training for a Lady graduate.

37 The Senior Surgeon has not sent a reply to the communication addressed from the office in spite of several reminders.

38 A selection may be made from the above mentioned subjects.

39 In this connection I may be permitted to state that the procedure followed at present for the selection of subjects for scholarships and of candidates is not satisfactory. In the month of March, the Heads of Departments are requested to send a list to Government of the subject or subjects for which foreign scholarships are required having regard to the needs of the Department. The communications are treated as mere matters of routine. Several Heads of Departments do not send any replies at all in spite of reminders. I would therefore suggest that a circular order should issue to all Heads of Departments to send up proposals before the end of December each year regarding the subjects for

NOTE—Contn. sheet.

Serial No.

which men with foreign training are required by the Departments. The Industries and Commerce Committee should in consultation with the Director of Industries and Commerce also send up a similar list regarding industries in which facilities for foreign training may be afforded. Similar proposals may also be called for from the authorities of the University. After the proposals are received a meeting may be convened under the Presidentship of the Member in charge of Education, who may invite such Heads of Departments as he considers necessary and make a preliminary selection of subjects. The matter may be further considered in Council and a list published in February and applications invited. Selections may be made in March and the selected candidates made to undergo training in India for 6 months within which time we shall be in a position to judge of the actual capacity of the persons selected.

48 The points for orders are -

(1) Subjects in which scholarships may be awarded in the year 1916-17 and the date for the submission of application.

(2) Procedure to be adopted in future for selection of subjects and candidates.

No. (1) may be dealt with at once. Orders may be passed on No.2 after No. 1 is disposed of.

51 (1) Under the foreign scholarship rules 4 State scholarships, 2 Damodar Das scholarships and 5 loan scholarships of £200 each are awarded annually. Out of these, two scholarships have to be reserved for payment of the premium for the training of Mr. Garulapuri Shastri in Soap making in Europe. Of the other 4 scholarships exclusive of the loan, the Council are of opinion that they may be awarded as follows:-

(i) Forestry,
(ii) Electrical Engineering,
(iii) Metallurgy and Mineral Processes,
(iv) Mechanical Engineering with special reference to pattern making and moulding.

As regards the loan scholarships, the Council are of opinion that application may be invited, the subject to be selected by the candidates themselves. The Council are also of opinion that in special cases it may be necessary to raise the amount of the scholarships to £250.

(2) The resolution of the Council may be approved. Committee consisting of the Inspector-General of Education, the Chief Engineer, the Conservator of Forests and the Director of Industries and Commerce and the Director of Mines and Geology may be appointed to select the candidates.

		Passage money to the 5 scholars ...	250	1,250
			Total.	1,770

(£1,770 or Rs.26,550/-).

A lumpsum has to be added for such maintenance charges as may have to be sanctioned to those that are in service and are awarded scholarships during 1916-17. This will have to be added by Government, and the whole amount provided for in the "Ways and Means" estimate for 1916-17. If the Government are pleased to sanction all the 5 scholarships provided for in the rules, orders may kindly issue to include the above sum in the next "Ways and Means" estimate.

SIR,

In reply to your letter No.5371-81-Edn.2-15-98, dated 27th March 1916, I have the honour to state that I should like to have 2 scholarships for this Department on the following lines :-

(1) A scholarship for Mr.C.E. Suryanarayana Rao, Offg. Deputy Inspector of Mines, to study the principles of mining work and Mine Inspection in England. It will not be convenient for Mr. Suryanarayana Rao to leave here before January 1917 as Mr. Beckwith is away and we are short handed.

In January he could go to the School of Mines in London and take the mining course for a period of 6 months after which he should spend at least 6 months visiting various mines. One of the subjects which he should make a special study of is Mine Ventilation which is going to be one of the big problems here in carrying on deeper work.

(2) A scholarship for Mr.B. Balaji Rao, B.A., Offg. Assistant Geologist, to study certain Metallurgical and Mineral processes. This would mean his leaving here about August or September and taking the metallurgical course at the School of Mines for about 6 months after which he should devote some

12 months to visiting works and studying various processes. The processes will depend on the facilities which he may be able to obtain and should embrace the following -

(1) The preparation and testing of limes & cements.

(2) Mining and preparation of Kaolins.

(3) The materials and processes for manufacture of porcelain and earthenware.

(4) The materials and manufacture of bricks - especially fire-bricks and other refractories.

With reference to your D.O. letter of the 20th instant regarding Foreign Scholarships for 1916-17, it may be notified that the applications should reach the Inspector General of Education not later than 1st November 1916.

It is not possible to state definitely when the students may leave India. It is found that courses in the same subject begin in different parts of the year in different countries and often no two different courses begin in the same month. Moreover, of late there has been some difficulty felt by the scholarship holders in obtaining passages, as the shipping companies cannot make arrangements as readily as they used to do before the War. Any how, I think a period of 2 to 3 months will be required after the scholarships are sanctioned, for the selected students to make the necessary arrangements.

Yours sincerely,

K. Shamma Rao.
